DETAILED ACTION

Drawings

1. The drawings were received on 12/26/2003. These drawings are not acceptable.
2. New corrected drawings are required in this application because the drawings filed on 12/26/2003 failed to clearly show the invention (i.e. some parts of the drawings are illegible). Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

3. Claims 25-37 are allowed.
4. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Conclusion

5. This application is in condition for allowance except for the following formal matters:

Art Unit: 2851

New corrected drawings are required in this application because the drawings filed on 12/26/2003 failed to clearly show the invention (i.e. some parts of the drawings are illegible).

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
